

## SOFTWARE 1, 2, & 3-SUPPLY LIST

To attend this class, you must have taken Computer 101 or have taken, and passed, the Opt-Out Test. Contact us at CS Sewing to help you with this process.

It is very important that you have the following before coming to class – thank you for your cooperation:

\*Mastering Your Embroidery Software CD. Purchase this from CS Sewing for \$5.00, or go to [www.cssewing.com](http://www.cssewing.com) and download the file from our Support Page free of charge. The file is named Mastering Software Workbook and it can be found on the Support Page. You will need to get this in advance from us, then print it out on your printer at home or have a print shop (like Staples) print it for you. Have it in a 3 ring binder for class. This is a requirement, so please be sure to pick this CD up before class so you have time to get the printing done.

\*Paper and pencil or pen for taking notes.

\*The manuals for your software – optional as we don't use these but sometimes refer to them.) **Version 5** users, see our Support Page at [www.cssewing.com](http://www.cssewing.com) for the easy directions on how to obtain your manual from within your software yourself. If you purchase the Mastering Your Embroidery Software CD from us for \$5.00, we have included your manual in a PDF format on that CD.

\*Highlighter

\*Flags or post it notes so you can easily flag thins in your workbook and manual.

\*Computer (lap top or desk top). This includes: monitor, CPU, mouse, keyboard, and all the cables and power cords.

\*Your Bernina Embroidery Software must be loaded onto your computer and you know that it is working. If you are having problems with this, it must be taken care of before the day of class as there is no time in class for trouble shooting installation problems.

\*Your Security Device (Dongle). You can NOT run the software without it. Make sure that you have plugged it in and know that your software is opening.

\*CD-R or CD-RW, or a floppy, and/or a memory stick for when we go over saving your information to another location or if you want to save your designs to an external source. The type of media you bring really just depends on the type of media you prefer to use in your computer. We recommend memory sticks or CD-R's.

IF YOU ARE UNABLE TO ATTEND THIS CLASS THAT YOU ARE REGISTERED FOR, PLEASE CALL US TO CANCEL SO THAT WE MAY CALL THE NEXT PERSON ON THE WAITING LIST. THANK YOU.
