

Mastery 7 – Software and the BERNINA 830

Install Software according the installation directions and an icon is placed on the desktop after installation

- € ArtLink V6 is a free Download from www.berninausa.com>Software>ArtLink6
- € ArtDesign came with earlier 830 purchases. It needs to be updated with SP1 and can be downloaded from www.berninausa.com>Support
- € Version 5 Software needs to be updated with SP2 to have the 830 files added for transferring designs and adding the Jumbo Hoop file. It can be downloaded from www.berninausa.com>Support
- € Version 6 Software needs to be updated with SP1 and can be downloaded from www.berninausa.com>Support

Regardless of the software package type, the transfer of files is the same

Instructions for Converting and transferring Designs to the 830

1. Open the design in the software
2. Make any changes desired using the tools provided
3. Touch the Write to Machine Icon and press OK
4. Select either the BERNINA 830 OR the USB Stick for the BERNINA 830
5. USB stick Transfer:
 - a. Select the arrow to send the file to the USB Stick
 - b. Wait for the 'Design Successfully sent to the Embroidery System' message
 - c. Take the USB stick to the 830 and embroider the design
6. If using the cable, select either the Arrow or the needle to send the file to the 830 directly
 - a. The Arrow will save the design to the machine memory
 - b. The needle will send the design to the screen and not be permanently saved on the 830
