BRAND FRIENDLY EMBROIDERY CLUB - JUNE SUPPLY LIST

We will be making embroidered coasters. There are two different looks and you will be able to select which style you would like to make.

Fabric:

The size of your embroidery hoop determines the amount of fabric you need because each coaster has the top and bottom fabric hooped. The amount of batting you need is also determined by the size of your hoop because your batting is sandwiched between your fabric in the hoop.

Your design for your project will be provided to you in class.
