SOFTWARE SAMPLER SUPPLY LIST

All Software Sampler classes have the same supply list. You will not need a sewing machine for this club because we will only be working on our computers.

*Computer with Bernina Designer Plus V5 or V6 software installed on it. If you don't have that level of software, you can come to the webinar portion of the club from 11am-12pm, but you will not be able to do the hands-on part in the afternoon.

*Security Device for your software

*Paper and pencil for taking notes

*USB storage device is a good idea to have for class.

You will be given a Software Sampler CD for that current month during class.

REMINDER: IN ORDER TO RECEIVE A REFUND OR STORE CREDIT WE REQUIRE 48 HOURS NOTICE FOR CLASS CANCELLATIONS.
